8. FAQ

1. Introduction

Welcome to DIDConnect, a social platform designed to connect users through decentralized identities. This manual provides guidance on using the platform's features effectively.

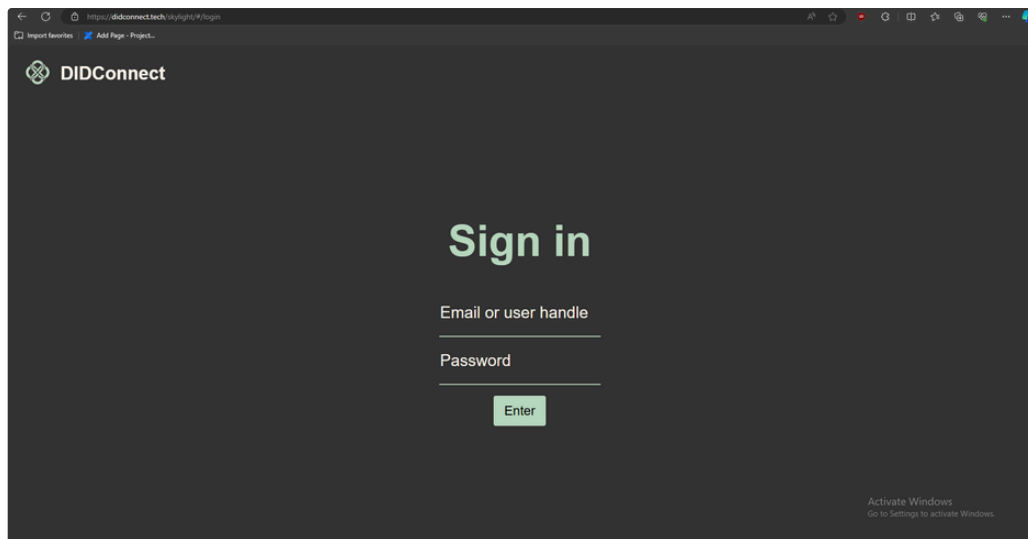

2. Getting Started

How to Sign Up

1. Navigate to the main page: [DIDConnect](https://didconnect.tech/skyhighs/kr/main)
2. Click "Sign Up" and enter the required information.
3. Confirm your email to activate your account.

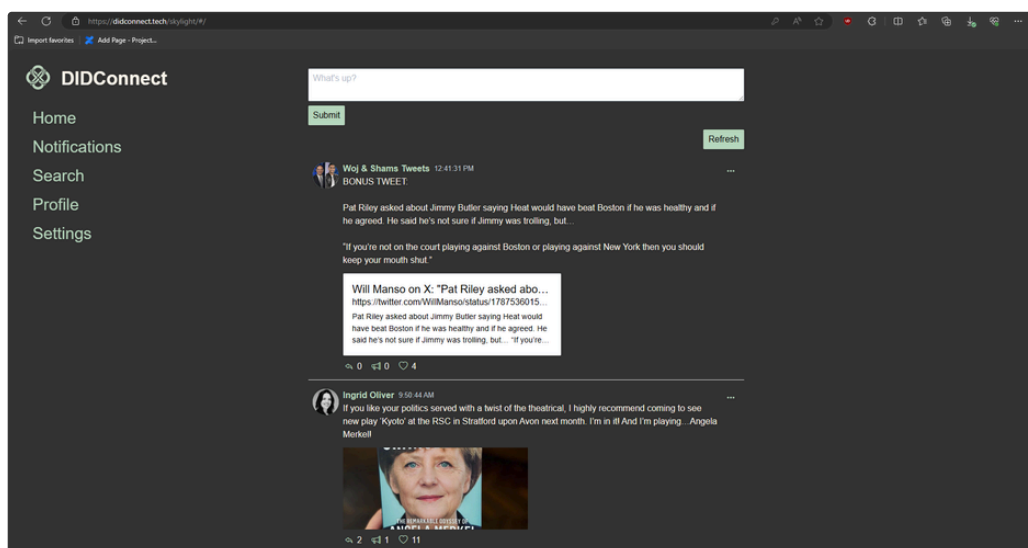

How to Sign In

1. Visit the main page.
2. Click "Sign In" and enter your credentials.

3. Dashboard Overview

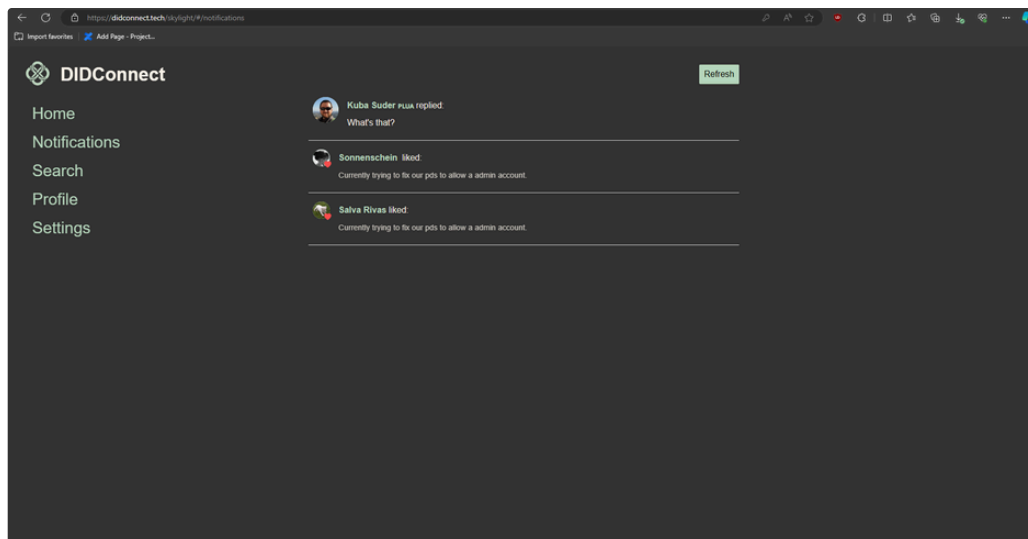

Home

Access your feed and see the latest posts from users you follow.

Notifications

Check your interactions including likes, comments, and replies.

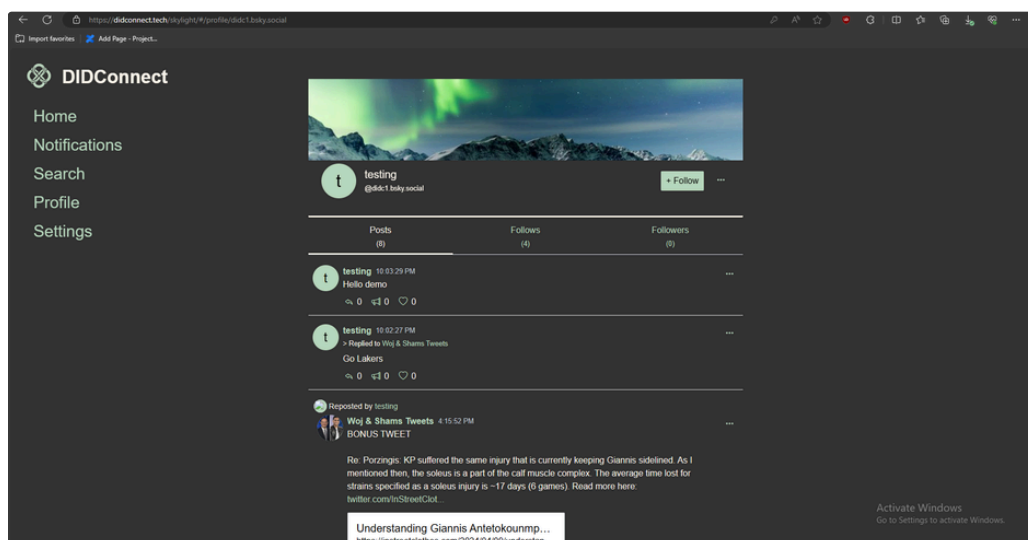

Search

Search for other users or content within DIDConnect.

Profile

View and edit your profile including your posts and personal information.

Settings

Adjust your account settings including privacy controls and account information.

4. Managing Your Account

Editing Your Profile

- Access the "Profile" section from the dashboard.
- Click "Edit" to change your profile details such as profile picture and bio.

Changing Settings

- Go to "Settings".
- Toggle options like "Enable relative time" for how timestamps are displayed.

5. Interactions

How to Post

- Navigate to your profile.
- Enter your message in the "What's up?" field and click "Submit".

How to Follow Other Users

- Use the "Search" feature to find users.
- Click "+ Follow" on a user's profile to follow them.

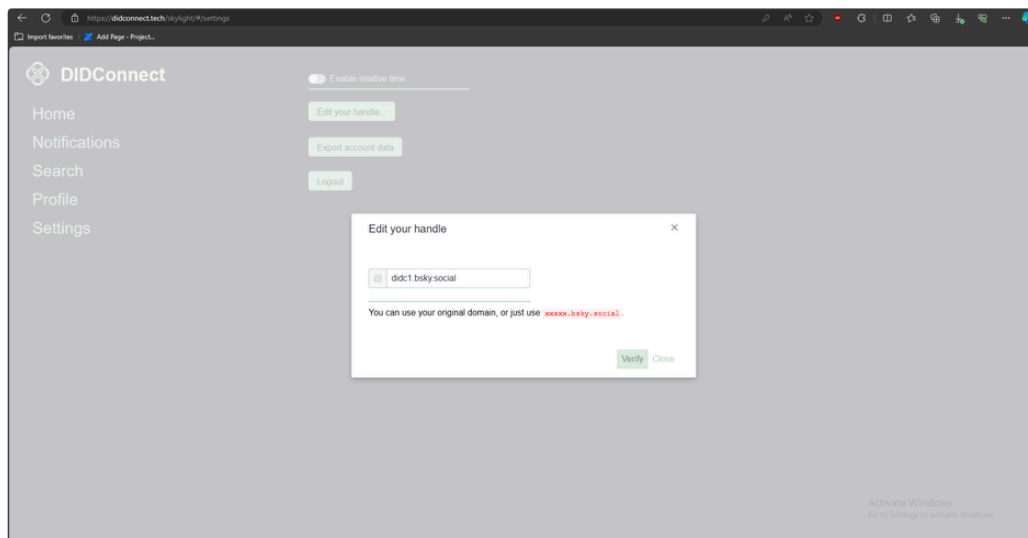

Managing Notifications

- View interactions in the "Notifications" tab.
- Customize notification settings in the "Settings" menu.

6. Advanced Features

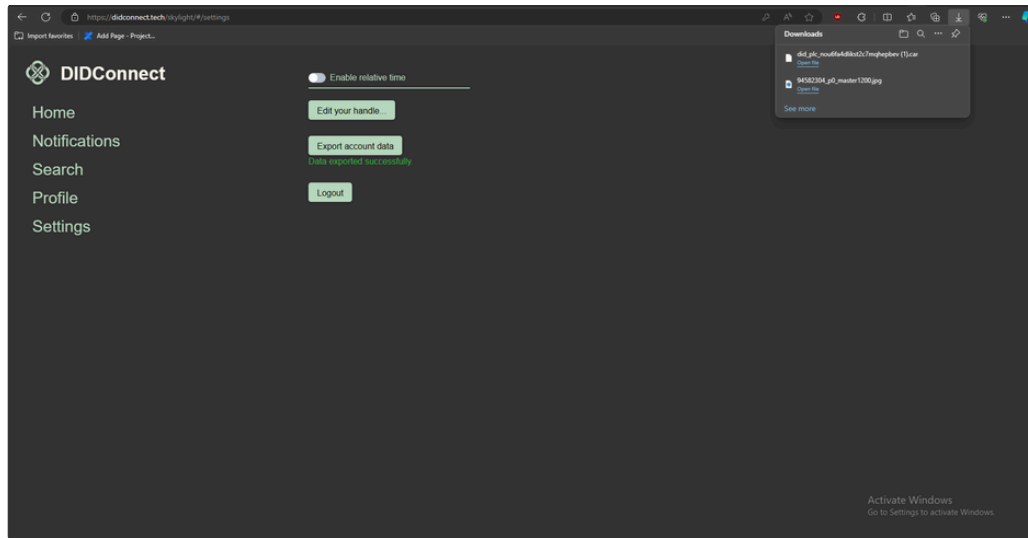

Editing Your Handle

- In "Settings", click "Edit your handle".
- Enter a new handle and verify.

Exporting Account Data

- In "Settings", select "Export account data".

7. Troubleshooting and Support

Encounter any issues? Refer to the FAQ or contact our support team directly through the help section.

8. FAQ

Find answers to common questions about account management, privacy settings, and user interaction.
